

# Student Portal Application

Student Portal is a new program that runs from the district student information software to allow students to view their grades as they are posted by teachers and to monitor their attendance. In some cases students may be able to view assignments in advance. Student accounts will not be able to make demographic changes and will not have access to the household information. If you would like to have a student account created please complete the application below and return it to the school office. This service is currently only available for students in grades 7-12. Please complete one application per student in qualifying grades.
